Payment: Kindly remit the training fee of Kshs. 3500 via our Mpesa Till No. 867237 by Thursday, 23rd November 2017

Dear friends,

Thank you for our keen interest in improved kienyeji / indigenous chicken. The idea to train people on the rearing of improved kienyeji chicken came after our own experiences and hurdles in setting up our improved Kienyeji farms. We came to the realization that there is no central place one can get reliable information on rearing of indigenous chicken, and in the event that one gets the literature, one lacks the opportunity to seek further clarification on various issues that he/she might have after going over the information provided. We thought it beneficial to hold such training and create a forum for farmers engaged in or interested specifically in the rearing of indigenous chicken to interact, learn and build networks through which everyone can get support, advice and information whenever they need it.

To this end, we are delighted to invite you to our **67th Homerange KARI Kienyeji Chicken Farmers Training**

Date: **Saturday, 25th November 2017**

Muchatha, along Banana Raini Road (Ruaka Town) P.O. Box 641 – 00508, Nairobi – Kenya.
Mobile: +254 714 571 058, +254 727 200 116, Email: info@homerangepoultry.com ;
homerangepoultrykenya@gmail.com Website: www.homerangepoultry.com

Time: **9.30 am – 4.30 pm**

Venue: **Homerange Ruaka Poultry Farm, along Limuru road - Ruaka Town, Nairobi.** (An sms with directions will be sent to all registered training participants)

The training shall focus on the following topics:-

1. Introduction to poultry farming: indigenous / kienyeji chicken.
2. Artificial Incubation and hatching of indigenous / kienyeji chicken eggs.
3. Brooding management.
4. Basics of constructing an Indigenous / kienyeji chicken poultry house.
5. Basics to Feeding of indigenous / Kienyeji chicken.
6. Poultry Diseases, Control and management in indigenous / Kienyeji chicken.
7. Basic Poultry Farm Records keeping and General Farm management.

The training will comprise of both theory and also practical training that will take place at our poultry farm at Ruaka along Banana Raini road to learn hands-on how to rear the improved kienyeji kuku.

Refreshments and snacks will be provided. For those who need something rather heavy, you are however advised to make private arrangements or perhaps carry a light packed lunch.

We shall provide a writing pad and a pen for your use. Feel free to bring along your laptops or tablets if you so wish as well. Please feel free to take photos both at the training and the farm.

Muchatha, along Banana Raini Road (Ruaka Town) P.O. Box 641 – 00508, Nairobi – Kenya.
Mobile: +254 714 571 058, +254 727 200 116, Email: info@homerangepoultry.com ;
homerangepoultrykenya@gmail.com Website: www.homerangepoultry.com

For those with private transportation, there is sufficient parking space available and for those who will be using public means, you will be dropped at a 2-minute walk-in distance from the main road so not to worry about having to walk too far.

Charges & Payment:

Charges are **Kshs. 3,500 per person**. All payments should be remitted not later than **Thursday, 23rd November 2017** to allow us make arrangements for the training.

Kindly remit the payment through our usual MPESA Till No. 867237 (Go to Buy Goods Option on the Mpesa Menu). For those who remit payment with a number different from the one they have made a booking with kindly send an sms to 0727 200 116 or 0786 942 052 and indicate your name and MPESA transaction code so we are able to know for whom the payment is for.

A comprehensive but simplified guide for the rearing of the KARI improved kienyeji chicken that will adequately guide farmers to apply the best farming practices, guaranteeing great production from their chicken and higher returns.

This guide provides a comprehensive reference on hatching and incubation of eggs either naturally or artificially, brooding management, poultry housing, feeding of the improved kienyeji chicken, common poultry diseases management and control, records keeping and farm management and finally, a complete outline of how to grow your own poultry feed hydroponically.

We hope this book will be an eye-opener to you and all who read it, and it shall enrich your poultry rearing experience!
